

Bitte sorgfältig vor Gebrauch durchlesen! Sie sind verpflichtet, diese Anweisungsinformation bei Weitergabe der persönlichen Schutzausrüstung (PSA) beizubehalten bzw. an den Empfänger auszuhandeln. Zu diesem Zweck kann diese Anweisungsinformation uneingeschränkt vervielfältigt und unter www.feldtmann.de heruntergeladen werden.

These gloves are certified as personal protective equipment (PPE). The CE mark shows that this product meets the requirements of Regulation (EU) 2016/425. The Declaration of Conformity can be found at www.feldtmann.de/Konformitaetszertifikierungen

Information on the manufacturer's information must be observed. Date of production, see CE label inside the glove observed!

Classification and numbers of standards whose requirements the gloves meet. Reference to the standards: Official Journal of the European Union. Available from Beuth Verlag GmbH, 10787 Berlin, www.beuth.de.

Table with 5 columns (1-5) and rows for Abrasion resistance, Tear resistance, Puncture resistance, etc.

Je höher die Ziffer, desto besser das Prüfergebnis. X bedeutet „nicht geprüft“. P bedeutet „bestanden“.

EN 407:2020 Schutzhandschuhe gegen thermische Risiken

Table with 5 columns (1-5) and rows for Brennverhalten, Kontaktwärme, Strahlungswärme, etc.

Die Kennzeichnung „X“ anstelle einer Zahl bedeutet, dass die Handschuhe nicht für die Verwendung, die von dieser Prüfung abgedeckt ist, vorgesehen sind.

General instructions: This user information is intended as assistance in selecting your safety equipment.

Cleaning and care: Treatment with ordinary commercially available cleaning products is recommended.

Disposal: The gloves are delivered in standardized sales packaging made of recyclable cardboard.

Recycling: The gloves are delivered in standardized sales packaging made of recyclable cardboard.

Material composition: Polyester + Cotton, natural coloured.

Health instructions: During proper work with the product, allergic reactions may arise to components of the glove.

Name and address of manufacturer: HELMUT FELDTMANN GmbH, Zunftstraße 28, D-21244 Buchholz in der Nordheide.

Notified body responsible for performing the type examination: MIRTA KONTRÖL d.o.o., Javorinška 3, HR-10040 Zagreb - Dubrava.

Classification and numbers of standards whose requirements the gloves meet. Reference to the standards: Official Journal of the European Union. Available from Beuth Verlag GmbH, 10787 Berlin, www.beuth.de.

EN ISO 21420:2020 Protective gloves. General requirements and test method. EN ISO 388:2016 Protective gloves against mechanical risks must achieve performance level 1 or performance level A of the TDM cut resistance test according to EN ISO 13997:1999 (or at least one of the properties (abrasion resistance, cut resistance, tear resistance and puncture resistance). Levels of performance refers to the palm of gloves. Abrasion resistance: The number of rotations required to wear through the test glove. Cut resistance: The number of test cycles it takes to cut through the test sample at a constant speed. Tear resistance: The force necessary to continue tearing the cut test sample. Puncture resistance: The force required to punch through the test sample using a standardized test point.

Table with 5 columns (1-5) and rows for Abrasion resistance, Tear resistance, Puncture resistance, etc.

The higher the number / letter, the better the test result. X means "not tested". P means "passed".

EN 407:2020 Gants de protection contre les risques thermiques

Table with 5 columns (1-5) and rows for Burning behavior, Contact heat, Convective heat, etc.
